CAREER ASSISTANCE PROGRAMME

Improving Access to Higher Education

Centre for Skills and Innovation (CSI) Uganda

centreforskills.org

Introduction

Career Assistance Programme (CAP) provides inclusive, participatory career guidance & assistance for young people in Uganda to access higher education. CAP works in both in schools & in the communities. It was started in 2014 at Lira Town College. It targets mainly primary, secondary school students and young adults.

CAP is a programme of Centre for Skills and Innovation (CSI), a non-profit initiative based in Lira, northern Uganda.

Project Objectives

- To provide high school leavers with vital information to join higher education.
- To encourage students to pursue STEM careers and pathways.
- To assist students with university application process.

SDG Goals

The programme fosters attainment of SDG goals 4 and 5.

Education is a human right & driver for development.

Also, helping girls attain education improves their lives and the future of their families.

How it Started

My interest at the time (2014) was to help my students gain access to top universities in the country. I had seen my students aim only for small institutions and they thought Makerere University, Kyambogo University and others were only for the rich.

Later, I realised that the issues surrounding career guidance and university application process was a problem in the entire region. For 6 years now, the CAP has helped thousands of students and adults gain university admission & continue their education

Emmanuel Angoda

Teacher, Lira Town College (2012-2019)

Our 2020 Plan & Partners

This year, we are expanding the programme to four schools, 3 in Lango sub region and 1 school in Bunyoro sub region. We target to reach and impact 600 students, from the districts of Lira, Dokolo, Oyam, Kole, Kiryandongo, Alebtong and Otuke.

Great Lakes Regional University	

Our Strategy

Prepare

We prepare young people for post-secondary education at top universities & institutions.

Advice

Objective advice, giving opportunity to young people & their parents to decide their final decision.

Connect

We connect young people to other outstanding peers to enable them to succeed at university.

Inspire

Education Transforms Lives and we inspire young people to embrace life-long learning
