

STEM Manifesto

Our Commitment to Champion Science, Technology, Engineering and Mathematics education in Uganda

centreforskills.org

Introduction

This STEM Manifesto has been developed to support our STEM advocacy work and deep-rooted belief in the need to advocate for, promote and support the STEM movement in Uganda. We believe that if STEMism is fully embraced in Uganda, girls and women will be well placed to break the existing gender-gap & inequality in the workplace.

Our STEM Pledges...we will...

- Ensure that STEM is given priority in all our activities and partnerships.
- Commit to building a strong STEM capability for Uganda.
- Commit to supporting young people in Uganda to pursue STEM careers.
- Ensure that we raise the level of STEM literacy, numeracy and employability skills in our staff, volunteers and partners.
- Commit to build understanding, knowledge and expertise of STEM subjects using the right tools.
- Commitment to breaking the gender gap in STEM education and STEM careers.

STEM Strategies...

- STEM Competitions for primary, secondary and university students.
- STEM Talks for in-school and out-of-school youth.
- Training and eLearning to improve skills.
- Mentorship
